# Your New UnitedHealthcare® Medical ID Card\* is here.

Attached is your new UnitedHealthcare® ID card. Sign the back and begin using it on or after the effective date of your coverage. You may be asked to present your card each time you see your health care provider.

The card is designed to streamline your access to care. The magnetic stripe on the back of the card enables health care professionals to electronically check eligibility. UnitedHealthcare utilizes this system to provide you with more efficient service. It provides information needed to confirm your coverage and document care so UnitedHealthcare can handle the claims process for you.

Please use it every time you visit your doctor or other health care professional. Also, please have it available whenever you call UnitedHealthcare customer care.

The subscriber number on the card is your unique identification number within the UnitedHealthcare system. Important phone numbers are printed on the back of the card. Please note the "Date Issued" listed on the back of the card is the date the card was ordered, not the date your coverage is effective.

Should you have any questions, simply visit our Web site at [www.myuhc.com](http://www.myuhc.com) or contact a customer care professional by calling the number on your Medical ID Card.

We look forward to connecting you to the right care and information, when you need it. Thank you for choosing UnitedHealthcare.
